SUMMARY

Currently working remote in Abu Dhabi, Product Manager leading AI, SaaS, and enterprise platform development bridging structured and unstructured data into actionable insights. Proven success delivering AI-driven data products, backend integrations, and real-time analytics dashboards for global clients. Strong foundation in telecom, infrastructure, and API architecture, coupled with hands-on experience in LLM integration, contextual automation, and performance optimization. Known for execution excellence, cross-functional leadership, and transforming complex technical requirements into scalable solutions.

PROFESSIONAL EXPERIENCE

Marketstar | *Product Manager - Nytro.ai (AI-Powered Sales Enablement)*

Aug 2024 - Present

- Leading end-to-end development of an AI-driven intelligence platform integrating structured and unstructured communication data to deliver real-time analytics and insights.
- Led VAPT (Vulnerability & Penetration) audit and implemented all remediation measures before redeployment.
- Coordinated cross-functional efforts to align product workflows with ISO 27001 and data privacy standards.
- Designed data ingestion and contextual awareness models to improve simulation realism and decision accuracy by 25%.
- Collaborated with BE teams to build data processing pipelines using streaming architectures, cutting response latency 50%.
- Defined API strategy and external integrations for client data sync, enabling interoperability with LMS & CRM platforms.
- Reduced evaluation variance across AI models by 70% through optimized scoring and data segregation methodologies.
- Managed enterprise clients including Google, Reddit, Equinix, Atlassian, delivering scalable intelligence & training solns.
- Oversaw secure deployments via GCP migration, achieving 15% cost savings and 30% performance improvement.

Indiamart Intermesh Ltd. | *Product Manager - Business Intelligence - ecommerce*

Dec 2022 - Aug 2024

- Directed data-driven communication and analytics platform serving 10M+ SMB users, enhancing call conversions by 15% through intelligent feature delivery.
- Ensured data security, privacy, and uptime compliance across communication and analytics platforms.
- Collaborated with telecom partners to optimize cloud telephony infrastructure, achieving 70–90% operational cost savings.
- Implemented AI chatbots (DialogFlow + GPT) for intelligent query handling, reducing manual workload by 25%.
- Coordinated across HR, ops, and data science teams to align automation initiatives with business strategy and KPI tracking.

[HCL Technologies | Giantview Technologies | QBurst Technologies] *Early Career Roles - Engineering & Product.* **2016 - 2022**

- Supported COPC certification audit for enterprise support operations, focusing on process control and data integrity.
- Led process improvement initiatives for tech clients, identifying \$800K in potential savings through time-and-motion studies.
- Unified processes across domains, eliminating 61.9% redundancies and driving 15% cross-function efficiency gains.
- Conducted gap analysis, time-and-motion studies, and implemented best practices aligned with COPC standards.
- Developed and maintained web applications using PHP, Drupal, WordPress, Laravel, and JavaScript for 7+ websites.
- Prototyped features and authored PRDs during a product management internship focused on influencer marketing tools (e.g., Socialbook, Upfluence).

EDUCATION

Indian Institute of Management (IIM) Visakhapatnam | *MBA* (GPA: 3.01/4.00)

2019 - 2021

Govt. Model Engineering College | *B.Tech., Computer Science Engineering* (GPA: 7.22/10.00)

2012 - 2016

Sharjah Indian School | Class XII (2012) – [90%] | Class X (2010) – [9.0/10.0]

SKILLS & TOOLS

- **AI & ML:** LLM Integration (OpenAI, Gemini), NLP, Contextual Memory, Persona Control, Prompt Engineering,
- **Product Management:** 0→1 Roadmapping, Customer Lifecycle Strategy, CLM, Agile Delivery, A/B Testing, Data Security
- **Growth & Analytics:** User Acquisition Funnels, Predictive Analytics, Intelligence Dashboards, Amplitude, MixPanel
- **UX & Engagement:** Personalization, Retention Strategy, Feedback Loops, Mobile/Web Experience
- **Cross-functional Collaboration:** Engineering, Design, Analytics, Marketing, Sales, Customer Support
- **Tools & Tech:** Generative AI, Agentic AI, PowerBI, GA, GTM, DialogFlow, Firebase, GCP, Balsamiq, Axure
- **Methodologies:** Agile (Scrum/Kanban), OKRs, User Research, Market/Competitor Analysis, Compliance and Security
- **Tech Stack:** Python, GCP, Firebase, React, PHP, DialogFlow, REST APIs

LEADERSHIP & AWARDS

* **Emerging Star of the Year** | Indiamart (2023-24)

* **Pillar of Success Award** | Indiamart (2023)
